

CartReg®

In-line pre-set regulator for air blow guns and pneumatic tools.

The CartReg® pre-set miniature is installed in the compressed air supply line. It is designed to meet OSHA (Occupational Safety & Health administration, USA) and other safety agency requirements for 2 bar/30 psig maximum pressure for pneumatic air guns.

The CartReg® can easily be threaded into any 1/4" air blow gun and pneumatic tool and is an economical means to maintain the ideal pressure requirements.

Accessories:

Thread adapter G 1/4" female mountable on both sides

In-line pre-set regulator for air blow guns and pneumatic tools.

Product Benefits:

- Safety: protects personnel, machinery and plant by avoiding pressure surges
 - Ensures optimal air tool efficiency by supplying a constant pre-set pressure
 - Prevents compressed air waste limits excessive compressed air consumption = reducing energy costs
 - Easy assembly: can be integrated into any ¼» pneumatic tool
 - High-pressure performance (P1= inlet pressure up to 12 bar/174 psig Saves energy – reduces costs
 - High flow performance (up to 350 Ltrs./ Min -12,5 scfm)
- Lightweight (14g) and compact (Hexagon 14 mm, length 24 mm)
 - Locked to prevent pressure change – tamper proof
 - Competitively priced
 - Increases tool service life

Applications:

- Pneumatic air guns
- Pneumatic tools
- Pick and place units in automatic assembly systems
